

WIDE ANGLE - 10 x 5.3 HD

Extremely wide with no distortion 84° horizontal, short minimum focusing distance : 0.3 m (1')

- Fast aperture for the optimum result f/1.9.
- The exclusive AIF facility to perform a fast zoom, a precise focus, and back to the memorized frame.
- Top optical quality for 2/3" CCD HDTV cameras.

- Internal focus for the best protection to the lens.
- Handy and lightweight (3.9 lbs).
- Compatibility with different types of remote control kits, accessories and filters.
- Sturdy construction for rough environment with new materials and shape improving the protection of essential functions: return, momentary switch, AIF, VTR.
- Grip with perfect finish with an ideal angle for comfort and moisture absorbent protein paint for longevity.
- A rectangular sunshade minimizes light interferences. It is delivered with an integrated UV filter easily removable and standard 105 mm diameter pitch 1 mm. Front diameter 92 mm for matteboxes.
- Double engravings on the focus ring make it easy to use and clear for the shooting operator.

WIDE ANGLE - 11.5 x 5.3 HD - FILM DESIGN

- Genuine Film design for optimum quality (2/3" CCD HDTV cameras).
- Wide angle (84°), distortion free, combined with a long zoom range 11.5x.
- Large engravings.
- Calibrated focus scale from Film plane.
- Highest aperture of T1.9.
- Short MOD 0.3 m (1').
- High Resolution : Film quality.
- Compatible with all Film accessories: matte box, follow focus...
- Rugged construction with high precision Angenieux film mechanical design.
